

# MATERIAL LAB

*Autumn Winter 2023/24*

## CONCERIA NUVOLARI

Art. Glittering: viper texture on sheep/goat base with laminated finishing - Classic line.

PART OF ARSUTORIA 470

## ECOTAN BY SILVATEAM

*Suede crust article produced with Ecotan technology. The softness that characterizes it and the writing hand of the frosted crust, complemented by a warm Topaz color, make the article perfect for footwear and leather goods (Terra collection by Hashtag).*

*#Upcycling #Biobased #Softness*

## ECOTAN BY SILVATEAM

*Highly reflective article produced with Ecotan technology. The tanning process and chosen finish give it an aged, lived-in look. A perfect product for an immersion in the past while keeping your eyes fixed on the future (Vinci collection by La Scarpa).*

## ECOTAN BY SILVATEAM

Ecotan cowhide leather with a very natural look, bright colors and oily feeling, suitable for footwear (Marrado collection by Conceria Volpi).

#Upcycling #Biobased #Waxed #Oily

### ECOTAN BY SILVATEAM

Nubuck bovine produced with Ecotan technology, in platinum gray color and with an elegant "velour effect"  
(Bio-Nubuck by Sepiciler).

#Upcycling #Biobased #Softness

## ECOTAN BY SILVATEAM

An extremely elegant and balanced product characterized by outstanding simplicity. It is made on lambskin with Ecotan technology and has a full, mellow hand, a visible grain with a reflective effect (King collection by DVS).

#Upcycling #Biobased #Reflective #Shiny

## ECOTAN BY SILVATEAM

Produced with Ecotan technology, this item has a noticeable coarse grain on which an interesting play of chiaroscuro is created. The leather is mainly used for leather goods (Volpaia by La Scarpa).

## ECOTAN BY SILVATEAM

Ecotan article characterized by an aged, vintage, almost "ruined" look. Dark grain of varying sizes break up the homogeneity of the warm brown background, wrinkles and veins furrow the full grain giving the product a "worn" look (Pioneer collection by Curtibal).
